

LOCATION SWAP SERVICE

What do we offer?

ENOI S.p.A. offers a Location Swap to the Elengy's customers willing to divert the unloading profile of their cargo to a different market area.

This service can be applied to both regasification plants in Montoir and Fos Tonkin; ENOI would receive the profile at the PITTM and redeliver it in one of the major European Continental hubs.

Where can we offer?

Potential hubs for this service are:

- ✓ TTF
- ✓ NCG VTP
- ✓ Gaspool VTP
- ✓ PEG Nord
- ✓ ZeeBeach
- ✓ ZTP
- ✓ CEGH
- ✓ PSV

The choice of the Delivery Point shall be defined during the contract negotiation; diversions with multiple locations according to a pre-defined scheme can be discussed.

ENOI is available also to consider swaps to physical delivery points or to additional market areas, according to the need of the customer.

The Customer will be responsible for all the costs related to unloading and regasification; in addition, it shall pay to ENOI the service fee. ENOI will pay to the relevant TSOs any cost it may arise in performing the service.

How can you get the diversion?

Steps to enter in a location swap agreement

1. Get a regasification profile from Elengy
2. Choose one market of destination
3. Contact ENOI asking for a quotation
4. Sign the contract
5. Nominate to ENOI the diverted volumes and the delivery market
