

Bois-Colombes, 20th June 2022

### Nelly Nicoli is appointed Chief Executive Officer of Elengy

**Elengy's Board of directors has agreed to appoint Nelly Nicoli Chief Executive Officer of Elengy as of 1st June 2022.**

**Elengy, a subsidiary of GRTgaz, is one of the businesses within ENGIE's Networks Global Business Unit in France.**

With a degree in political science, and after having spent some time in the USA, Nelly worked for TotalGaz and in the consulting business before joining the ENGIE Group.

Nelly began her career at EDF-GDF services before joining GRDF in 2003 as HR Manager. She then moved to a commercial role in GRTgaz as Head of Key Accounts where she led the commercial development of a portfolio of gas suppliers prior to joining COFELY Services first as Chief of Staff and then as Commercial Director for Ile-de-France region managing services for industries, territories and public sector. In 2016, she joined Storengy as Head of strategy for commercial activities and operational scheduling. Prior to joining Elengy, Nelly was Managing Director of ENGIE Solutions' Global Facilities Management entity, in charge of major client accounts in the private and public sectors.

**She succeeds Sandra Roche-Vu Quang who has taken up another position within the ENGIE Group.**

#### **About Elengy**

Expert in Liquefied Natural Gas (LNG), Elengy, part of the ENGIE Group, operates three regulated LNG terminals in France: Montoir-de-Bretagne on the Atlantic coast, Fos Cavaou and Fos Tonkin in the Mediterranean. As the gateway to Europe for LNG, the three sites offer the market flexibility for unloading or loading any type of LNG carrier, transshipping between LNG carriers, loading trucks with LNG or regasifying LNG for injection into the transport network. With LNG, an available and competitive solution, Elengy contributes to the energy transition by reducing the environmental footprint of its customers.

Furthermore, Elengy is also developing its services by investing in the development of bio-GNL solutions to reduce the environmental footprint of the various players and prepare the transition to a carbon-neutral supply by 2050.

2021 figures: 400 employees - Regasification capacity: more than 20 billion m3 of natural gas per year - Quantity of energy received: more than a third of French demand – 203 ship calls registered.
